- ABOUT -

An enthusiastic and driven student with a unique combination of high school and college coursework, along with first aid and lifeguard training, eager to contribute exceptional interpersonal relations skills and responsibility, along with a variety of programming, computer science, engineering and IT skills.

- WORK EXPERIENCE -

Embold Credentialing Program

Embold IT Specialist Intern 2024

- Effective Communication: Clear communication with my superiors, so that project goals, constraints and deadlines can be clearly communicated.
- Problem-solving skills: Handling conflicts and emergencies by finding quick and effective solutions.
- Flexibility: Adapting to varying schedules and handling unexpected situations.

Metrobots Manager

Programming Lead (2 Years), Team Lead (1 Year) 2022 - Current

- Effective Communication: Communicating with team members who I am directly managing, talking about tasks and delegating responsibilities.
- Flexibility: Taking on responsibilities that were not mine, just because they needed to be done.
